etc.

Drink JAPAN 2019 -4th Int'l Beverage & Liquid Food Development/Manufacturing Expo is gathering more and more attention from the industry where investments on cutting-edge technologies for facilities are increasing dramatically. The venue will be the best business platform filled with the latest technologies which attract beverage/liquid food manufacturers and have active negotiations on-site.

In parallel to the exhibition, the conference will be held during 3-day show period. This edition's program covers hot topics in the industry. Factory IoT and AI, the most attention gathering technologies for the manufacturing fields will be covered by the industry leaders from the leading companies. As marine plastic waste has become a big issue and discussed in G20 held in Osaka, Japan, it is also featured often. The sessions regarding the waste reduction, recycling, sustainability will be good places to learn about them.

This edition will be concurrently held with Japan's Food Export Fair. Broader participation from the beverage/food industry is expected.
